To set up your course:

1

Create links in your LMS for students to access Perusall; students will be enrolled automatically when they click the Perusall link in your Learning Management System. You can track which students have used Perusall by clicking **Students**.

2

Set a course start and end date, and tell Perusall about your estimated enrollment and grouping preferences in **Settings**.

3

Choose course materials by clicking **Library**. Select a textbook from our catalog, upload a file from your computer, take a snapshot of a web page, or add a video.

4

Create assignments by clicking **Assignments**. Perusall engagement

Welcome to Perusall!! This brief tour will show you how to set up and navigate your course.

Next

End tour

Welcome to Perusall!! With only a few minutes of setup for an entire semester, the goal of each reading assignment is to stimulate discussion by encouraging students to **post good questions or comments**, to help others by **answering their questions**, and to **upvote good questions or comments** to draw the attention of their classmates to important ideas.

Perusall is designed to motivate students primarily through the content of the readings and their social interactions. You may also choose to use Perusall's engagement score (perhaps by combining it with your class participation score so students can help each other in whatever way they feel most comfortable). The Perusall engagement score is computed from student behavior and designed, based on our research, to predict students' mastery of the subject (see the **welcome message we suggest you provide your students**; you may adjust the grading rubric in **Settings**). Perusall then gently nudges students to get try to get every student 100% on this score and deliver to you a class of fully prepared students.

To keep students focused on intrinsic motivation for the material rather than grades or gaming the system, the **student welcome message** describes the general characteristics of effective reading without giving precise definitions. Since grading is designed to get every student prepared and 100% credit for the reading, students view it as non-adversarial and do not feel the need to game the system. Please ask students to pay attention to Perusall nudges, as doing so will not only improve their grade for each assignment but will also improve their performance in the course.

In addition to the textbook, we encourage you to upload all your class materials into Perusall. That way, if a student has a question, they can annotate your syllabus, a handout, or a problem set. You or (if you choose) another student can answer it, and you'll never need to answer the same question twice.

Our knowledge base has additional guides, such as suggestions on how to incorporate Perusall scores into your course grades, and what instructions to provide to students.

איך להוסיף תוכן

The screenshot displays the Perusall user interface. At the top, a navigation bar includes links for 'Get started', 'Library' (highlighted with a red box and a red arrow pointing to the 'Add content' button), 'Assignments', and 'Students'. On the right, there is a 'Help' section with a search bar and the text 'zendesk'. The main content area is titled 'Add content' and lists several options for adding materials to the library:

- Folder**: Add folders to your course to organize content in the library. Folders can be individually hidden from them, or want certain content only accessible through an assignment.
- Textbook**: Select a book from 200,000+ titles in our catalog. Students simply purchase the book through Perusall, usually at the normal digital price.
- Web page**: Take a snapshot of a web page to add to your content library.
- Documents from Dropbox**: Select a PDF, EPUB, or Word document from your Dropbox to add to your content library.
- Documents from my computer**: Upload a PDF, EPUB, or Word document directly from your computer to your content library.
- Materials from another course**: Copy course materials from another course into this one.
- Video New**: Add a video from YouTube, Vimeo, Dropbox, Google Drive, or a direct link to a video file. (This option is highlighted with a red box and a red arrow pointing to it from the left.)
- iClicker New**: Allow students to purchase iClicker Reef at a discount. (Purchasing iClicker through Perusall is only available for students in the US and Canada.)

אנא ציה עז ויצא /
 שׂוֹק מֵעֵמֶה 1690 /

The screenshot displays the Canvas LMS interface. On the left, the 'Add content' sidebar is visible, listing various resources. The resource 'פילוספיה של המדע - המפל חזרה' (Philosophy of Science - The Return of the Fall) is highlighted with a red box. The main content area shows a detailed view of this resource, including a video player and a toolbar with options like 'Open', 'Edit', 'Assign', 'Groups', and 'Delete'. The 'Assign' button is highlighted with a red box. A red dot next to the resource title indicates recent activity.

העזרת הקישור של המשימה ב-Perusall

כדי לקבל ציון במבחן יש להוסיף למבחן כל משימה בנפרד

The screenshot shows the Perusall interface for a course. On the left sidebar, under 'Library', the assignment 'powerposing' is listed. In the main content area, the assignment 'powerposing' is selected, and the 'Copy full title for LMS' button is circled in red. The interface also displays assignment progress, comments, and student activity.

A green notification box at the top right states: 'Copied assignment title to the clipboard. Set this to be the title of the assignment in your LMS.' Below it, the 'Copy full title for LMS' button is circled in red, with a red arrow pointing to it from the notification box.

כדי לקבל ציון במאכל יש להוסיף למאכל כל משימה הנמצאת
